Invitation for consultation on a Danish tender for solar PV

The Danish Energy Agency invites for a market dialogue on a tender of price premiums for electricity from solar PV with an installed capacity of less than 1 MW. The tender is expected to be held in 2018.

It has been politically decided to conduct a tender of price premiums for electricity from solar PV with an installed capacity of less than 1 MW and to cancel a solar PV scheme that was scheduled for 2017.

The total budget of the tender is DKK 105 million (2017-prices). The Danish

Energy Agency invites for comments and questions on the draft conditions for the tender published on 13 February 2018.

Comments and questions to the draft conditions for the tender must be sent to Sobia Waheed (sow@ens.dk) and soludbud@ens.dk by no later than Monday 19 March 2018 10 a.m.

[Read the draft tender conditions and read more information about the tender scheme on solar PV.](#)

Questions, comments and answers will be published on the same page.

The Danish Energy Agency is responsible for tasks linked to energy production, supply and consumption, as well as Danish efforts to reduce carbon emissions. The Agency is also responsible for supporting the economical optimisation of utilities that in addition to energy includes water, waste and telecommunication.

We are also responsible for user conditions, supply obligation and telecommunication statistics, as well as water supply and waste management.

The Danish Energy Agency was established in 1976, and is an agency under the Ministry of Climate, Energy and Utilities.
