## Vietnam: TV-channel sets focus on the Danish-Vietnamese climate cooperation

The Vietnamese television channel VTV4 has shown a 30 minutes long program on the Danish-Vietnamese climate cooperation. More specifically the TV program is about the two ongoing projects in Vietnam: CCAM (focusing on especially adaptation) and LCEE (Low Carbon Transition in Energy Efficiency). The program is structured around an interview with Charlotte Laursen (Ambassador), with clips from various initiatives, including training courses and company visits.

---

The Danish Energy Agency is responsible for tasks linked to energy production, supply and consumption, as well as Danish efforts to reduce carbon emissions. The Agency is also responsible for supporting the economical optimisation of utilities that in addition to energy includes water, waste and telecommunication.

We are also responsible for user conditions, supply obligation and telecommunication statistics, as well as water supply and waste management.

The Danish Energy Agency was established in 1976, and is an agency under the Ministry of Climate, Energy and Utilities.
